Year 10 Curriculum Guide

Further Enquiries:

- Please contact PASS on 8647 3300

The Year 10 Curriculum is based on the Australian Curriculum. Students will undertake some subjects from the Stage 1 SACE curriculum.

All students in Year 10 undertake four full year subjects. Subjects are English, Humanities, Mathematics and Science. Students will remain in their home groups for these subjects.

Year 10 students have the opportunity to select three subjects from other curriculum areas. Students may choose subjects for either one semester or a full year. Some prerequisites may exist for Semester 2 subjects. Refer to the curriculum descriptions for more information.

Several pages currently take you to the Stage 1 or 2 pages. This is currently being fixed.
