

# The Arts

## **THE ARTS: DRAMA** – Subject Type: Split; 1 Term and 1 Semester

This course aims for students to experience the elements of Drama as a performing art in a way that is current and relevant. Students learn to explore their own creativity through an understanding of the fundamentals of performing arts theory, practice and performance techniques.

Students work collaboratively in improvisational and group-devised activities. They demonstrate their understanding of play analysis and develop confidence in their own skills by participating in a whole group performance to a peer audience, either in an on-stage role as an actor, or an off-stage role as a theatre practitioner.

They will also view live theatre as an audience member as part of their studies and learn to reflect upon the dramatic works created by themselves and others in written and oral tasks.
