Visual Art

Visual Art– One Term

The aim of this course is for students
to

- develop understanding of visual
  conventions with a main focus on the art elements.

- view and appreciate artworks
  from different cultures, times and places.

- analyse, discuss and write about their
  own and others work, using appropriate terminology.

- develop and refine their skills in a
  range of practical areas (painting, drawing, sculpture, printmaking, textiles and
  design).

- apply learned visual conventions, techniques and processes to represent an idea or theme in
  own artwork.

- develop confidence, enjoyment and
  creative thinking skills through art-making.

- keep a developmental work book that
  documents exploration, planning and artworks.
